(Frequently Asked Questions in Every Mind)

Q.1.) Can I sell all the software...?

Ans. Yes...! JP Software Technologies comes with very unique and revolutionary visions that will help you grow your existing market and also make a new path for you shape up your dreams. Here a wide range of IT Products that you can sell. We provide Software and Website for all segments.

Q.2.) what is the scope of software market...?

Ans. Practically any software / website development company or individual, First of all, they go to market for requirement collection. Then develop software on the basis of requirement given by customer. Testing it at office as well as customer place, making changes again and again. Then take user acceptance test. Then user satisfaction, after sale phone attending. Finding same trade customer again and satisfy him. As a result, a visionary and innovative mind becomes bounded in this process. In the end, if you calculate all the cost is consumed in his survival only.

Now See
JP Software Technologies
business concept.....

- 1 • No Development Cost
- 2 • Unlimited Market Scope
- 3 • Unlimited Trial Distributes
- 4 • Fully Tested Products

Means, 0% Investment in development. No need to employ software development staff. Let us say for example we start from accounting software. Look around within 100 km radius, you will find more than 1000+ shops that can afford software. If you market them through email / SMS / Tele-calling / Personal visit. You can definitely finalize more than 20 to 40 shops within one month.

The same market if you want to tap using your own software. You may hardly finalize 5 to 7 software only. In the same way, there is no. of trades market the products.

Secondly, every client wants a trial before taking any product. In this concept, this is the biggest opportunity to create your faith in the market. Distribute unlimited demo software in the market. Let the customer use it before he buys it. This will help creating your faith in market and getting new possibilities.

Thirdly, when your faith grows, you can create your own network of hardware vendors / Accountants / CA's, those would give customer references to your company. For instance, when you have a network of 200 people, giving customer reference. If everyone gives average 2 customers in one year, then 400 software are sold in reference network itself.

Q.3) How much time is required for training a product...?

Ans. All the products are developed by keeping in mind a layman user. That's why; its training is not a complicated process. Any software require only 1 hours training.

For more details and guidelines our training team is available from 10:00 AM to 06:00 PM at your disposal.

Q.4) After Sale Service Issues...?

Ans. All the software are fully tested by more than 1000 users already. For any kind of technical query our team is available on team viewer.

Q.5) How To Start...?

Ans. You need to just fill up our channel partner form. Take 3 days training and start your work

Send us your complete details by mail. We will provide you demo software. After that you will be able to distribute unlimited demo software in the market. You can purchase any no. of License time to time as per your sales requirements.
